**Subject:** FW: Follow up on PFAS

Jennifer – as discussed today, below is the note from Jonathan Gledhill, I think we have finally agreed on some dates for the PFAS follow up meeting that we agreed to have with the Responsible Policy Science Council members (3M and others). Meeting will be in Cincinnati, Thursday 11/15 in the afternoon will be analytical methods, Friday 11/16 in the morning will be treatment and remediation.

Will keep you posted as the agenda develops. Would also like to tee up soon a broader discussion on strategy for engaging more generally with stakeholders.

Regards, Andy

Andrew J. R. Gillespie, Ph. D.  
Associate Director, US EPA/ORD/NERL  
ORD Executive Lead for PFAS R&D

**Subject:** Follow up -- November 16th?

Andy,

I am very sorry for the long delay in getting back to you. It doesn't reflect our lack of interest but just the general problem of coordinating across several large organizations. If it is possible, would the 16<sup>th</sup> of November work for the meetings? We could have one on the 15<sup>th</sup> if that makes it easier.

Again, my apologies for the long delay.

Best wishes,

Jonathan Gledhill

**Subject:** Follow up on PFAS

Hello Andrew,

I wanted to reach out after our meeting on August 9<sup>th</sup> to follow up on scheduling additional meetings on PFAS compounds. If you remember, you were kind enough to join by phone as we introduced the RSPC coalition and its interest in promoting best available science in EPA and state decisions.

Thank you Lahne for forwarding us the slides on ORD activities on PFCs. As I mentioned in the meeting, our coalition members are available and interested in meeting on analytic chemistry best practices, remediation technology and coordination of research/development investments, and PFBS health effects. Please let me know how to best schedule these meetings with you and your colleagues and a good point of contact so that we can develop meeting agenda that address your team's questions.

Best wishes,

Jonathan Gledhill
